

Gun Style Air Heater

S&B gun style air heaters are ideal for process air streams with low oxygen content or entrained dirt and which require larger mass flows, higher temperatures, fuel oil operation or any combination thereof. Our gun style units are available in gas only, oil only, or combination gas/oil configuration and with low-emission burners.

90 MM BTU/ Hour; Oil Fired

Combination Gas & Oil Fired

Low NOx Gun Style Unit

Stelter & Brinck
